Notes:

1. The overall height of the transformer assembly after installing onto the PCB is not to exceed 13.0 mm.
2. The letters S, P, S', and P' designate the transformer terminal locations. See SIGNAL DEFINITION.
3. The letter T designates the "no connection" pin location.
4. Toroid core: Ferroxcube #TX22/14/6.4-3E6.
5. Winding: silicone-insulated wire, 22 AWG, 7/30, 10kV.
